

## UAS REGULATION CONSULTANT

### We're Hiring!

Across Safety Development is expanding — and we're on the lookout for a **UAS Regulation Consultant** to join our expert team.

Are you someone who knows their way around UK CAA and EASA drone regs? Comfortable with operational authorisations and SORA methodology? Then we'd love to hear from you.

This is your chance to be part of a growing consultancy that's shaping the future of uncrewed aviation in the UK and beyond.

**Location:** Hybrid (UK-based) | **Company:** Across Safety Development

**Job Type:** Full-Time | **Industry:** #Aviation #UAS

### About Us

At Across Safety, we support operators and manufacturers in navigating the complex world of aviation regulation and safety management in a straightforward and relatable way.

Founded in 2010 by Anthony Venetz, we've worked with some of the biggest names in aviation as well as a host of successful innovators and start-ups.

We get really excited about innovation, and pride ourselves on being plugged into the rapid evolution of aviation technologies. We love to work hand in hand with unmanned aviation pioneers and have helped our clients to achieve multiple world firsts.

### The Role

You'll be a key member of our UAS regulation and safety management consulting service, advising clients on compliance with UK and EASA regulations, supporting operational authorisation applications, and helping to shape the future of drone integration in aviation.

### Key Responsibilities

- Provide expert consultancy on UK and European UAS regulations and the requirements relevant to client objectives
- Guide clients through SORA based operational approvals
- Work with clients on the development of their operations manuals and integrated management system
- Stay up-to-date with evolving UAS regulations and industry standards and communicate key updates

### Must Have

- Be passionate about uncrewed aviation
- Have the right to work in the UK and be able to travel to Goodwood Aerodrome regularly
- Solid knowledge of UK and European UAS regulations and approval processes
- Experience in UAS operations
- Excellent communication and client-facing skills
- Strong written skills for preparing detailed documentation and reports
- Self-motivated, organised, and comfortable working independently
- Be able to work from our main office at Goodwood Aerodrome as part of a hybrid arrangement

### Nice to Have

- An aviation or UAS related degree
- Experience with SMS implementation
- Understanding of current UAS technology and trends
- Experience with BowTie risk management methodology
- Instructor/trainer experience (optional but welcomed)

### Why Join Us?

- Work in a fast-evolving and exciting part of the aviation sector
- Flexible working environment
- Be part of a small, friendly, and professional team with the opportunity to make a real impact and grow with the business
- Opportunity to help shape the future of drone operations in the UK and beyond
- Salary commensurate with experience (circa £55,000)

### Interested?

Apply now or reach out for a confidential chat. We're looking forward to meeting you.
